

Acquisition Opportunity

Industry: Cannabis Remediation X-Ray Manufacturer

Location: Northeast

Investment Highlights

- Brand Equity with Registered Trademarks
- Multiple Patents (5)
- Best-in-Class Products
- Internally designed line of HVPS has proven to be technically superior to all other offerings on the market
- Patented Cannabis Remediation System Prototype completed and tested in 2021
 - Production started in 2022
 - 100% Customer Satisfaction
- In-House Manufactured Power Supplies (Competitors use off the shelf components)
- ISO 9001:2015 Quality Management System (QMS)
- Web-Based RMA System - enabling customers to easily follow equipment through the repair process (a feature no competitor has)
- Strong Reputation in both service and sales
- The Company's HVPS's are currently being used by publicly traded giants in the x-ray industry

At an average sale price of \$200K per unit, this would mean an increase in sales between \$26MM and \$75MM, if a 1-3% market share of the over 13,000 current growing licenses was achieved.
